In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

The Differential Duties Act under Union.

The collection of duties on goods shipped from Victoria to New Westminster, which has been persisted in by the Government since the Union, on the ground of expediency, although admittedly known by them to be a wrongful act, is about to be made legal, not merely as regards the past, but also for the future; as there is but little doubt that what with propriety may be termed His Excellency's Legislature will pass whatever bills he requires, and his Attorney General says these illegal exactions are justified by expediency. Until this doctrine was urged by that official we used to think that whatever was "morally wrong could never be politically right;" but there is one part of this business which is not merely grossly unjust, but so dangerously inexpedient, that public attention should at once be called to it with a view, if possible, to prevent a dangerous abuse of power. It will be recollected that the present "Customs Ordinance" of British Columbia was expressly framed for the purpose, and has the effect of levying differential duties on goods imported from Vancouver Island. When the miners and others petitioned against it as calculated to increase the price of necessaries at Cariboo, and, like sensible men, complained that it was hard that they should suffer merely because New Westminster envied Victoria her trade, His Excellency admitted that the measure had the appearance of hostility towards Victoria, but justified it on the supposed ground of "expediency," (we fear we shall hear a great deal of this word), pointed out with much clearness that every Colony should endeavor to establish a commercial centre within her own limits, and complained that the profits of the mercantile transactions of British Columbia should be enjoyed by Victoria, which (so he said) in no way contributed to the revenue of that Colony. Now, this reply of His Excellency, written early in 1865, is valuable as avowing the views he then held, and his reasons for the peculiar framing of the Customs Act, both which may be concisely stated as the doctrine of building up New Westminster at the expense of Victoria; and it seems incredible, although we fear it is too true, that this hostile measure, framed before the Union, terminated by the proclamation of the Union Act, but since then deliberately put in force in defiance of the law, is to be re-enacted with reference to Vancouver Island, now a portion of the united Colony. The result is, that direct shipments to New Westminster are still, as heretofore, to be encouraged by the Legislature, and the trader and consumer in the interior of British Columbia is to pay for the great expense of endeavoring to divert trade from its established channel, and of artificially restricting Victoria to her commerce on the Island. It is to be observed likewise that the exigencies of the revenue will require that the Customs Duties should be higher than heretofore, and as those imposed on, many at least of the necessaries of life cannot be increased, other necessaries and luxuries in general must be taxed on a very high scale. The effect of this, as an inducement to direct shipments, is well known to merchants; but as the matter concerns the public in general, it may not be amiss to give an illustration of the working of the "Customs Act," passed at New Westminster, in this respect. Liquors, which are invoiced in London, say at $100, on their arrival in Victoria, for the purpose of estimating duty, would be, and we believe are, valued by the Collector of Customs at $133. Now, we will suppose the duty payable by the new tariff on such luxuries to be very high, say 100 per cent. (we assume this purely for the sake of illustration), then such goods, going from Victoria, will be laid down at New Westminster for twice $133, or $266. On the other hand, if shipped direct from London to New Westminster, they would be laid down there for $100, added to the duty calculated on the London value, or $200—leaving a balance in favor of the direct shipment of $66. The freight and other charges payable on the respective routes for the purpose of this inquiry, and so far as the action of the Legislature is concerned, need not be carefully calculated, although no argument can be adduced, that we are aware of, that offers any *commercial* inducements for shipments to New Westminster, instead of Victoria, but certainly the reverse. If the reader will now substitute for the supposed cent. per cent. duty others of less amount, say $50 or $25 on the different articles imported, he will find an injury is inflicted on Victoria in each case, by what we may term the Differential Duty Act, diminishing, it is true, along with the scale of charges, but in every instance a matter of serious importance. We are aware that a drawback in *practice* is allowed on goods, which, since the Union, have paid duty in Victoria, and if this *practice* is continued, what we have said will only apply to goods now actually in Vancouver Island, and which were imported before Union; but on the owners of such goods this great injury will in any case be inflicted. And we must protest against our rights being, in any case, regulated by *practice*, which, after all, means no more than the tender mercies of the Collector of Customs. In this, and in every case, where the delicate subject of the people's pecuniary rights is involved, we demand that the matter should be regulated by law, which it is the bounden duty of Her Majesty's representative to see justly framed and righteously enforced.

Letter from Paris.

[FROM OUR OWN CORRESPONDENT.]

PARIS, 18th December, 1866.

"The insurrection in Crete," says the *Etendard*, "has led to an act of heroism that reminds one of the war of Independence, and which has produced in Greece and throughout the entire East a great sensation. Five hundred and fifty Cretans, of whom 300 were women and children, being shut up in the convent of Obicardie, south of Bethymo, one of the body applied a match to a number of barrels of gunpowder, and blew themselves up rather than surrender. It is said that 2000 of the Turks who were assaulting the place lost their lives.

The *Moniteur* publishes an account of a singular cavern, lately discovered by some workmen engaged in digging foundations in a park belonging to M. de Rovais Mazeris, situated in the commune of Hac, near Lavaur (Tarn). The existence of this cavern had never been suspected by the inhabitants of Hac, and not the slightest tradition concerning it has remained. Mr Greller Balguerie, an associate of the Societe des Antiqdaires de France, has just visited the cavern. On examination, he found it had been used as a fortified dwelling—one of those places of refuge which were had recourse to in times of invasion or public disturbance. It might have been one of those erected by the Gauls in the time of Julius Cæsar. It consists of vaulted chambers, cut out of a hard rock, and connected with each other by a labyrinth of narrow galleries, admitting not more than one man at a time. The entrance to the main gallery is so narrow and low that it can only be entered by creeping on one's hands and knees. At every step the galleries present re-entering angles, recesses for guards, and places where strong palissades, or heavy doors of wood or stone must have existed. Opposite the entrance gallery, a sort of circular window is pierced, communicating with the first chamber; there is, moreover, but one entrance to this chamber, and that is by the middle one. The plan of this singular cavern has been carefully taken by the architects of Cavaur.

A Trieste newspaper informs us that the Empress Charlotte, of Mexico, has just written an account in English of her late visit to Rome, and of all the places of curiosity that she had visited in the Eternal City. Her Majesty has presented this manuscript, entirely written by her own hand, to her medical adviser, Dr Illeck.

A box filled with papers and parchment documents has been discovered by the workmen engaged in digging the foundations of the Louvre. One of our most skilful paleontologists has been entrusted with the task of deciphering the papers, which belong to the 13th century.

A MAN SHOT BY A CAT.

A few days ago a market gardener, named Holloway, living in Kingston, was preparing to go rabbit-shooting, when he placed the loaded gun on a table while he went to reach his hat. A cat leaped from a shelf to a table, touched the trigger, and the contents of the piece entered Holloway's body. From the severe nature of the wounds his life is despaired of.

The Prince de Ligne is the happy possessor of a curiosity of literature which ought not to be withheld from the forthcoming Exhibition. It consists of a book *neither written nor printed*, which bears the title, "Liber parrionis nostri Jesu Christi, cum characteribus nulla materia composita" All the letters are cut out of the finest vellum and pasted on blue paper, and the reading is as easy as that of the best types. The precision with which these very small characters are cut excites unbounded admiration for the patience of their author. The German Emperor Rudolf II. is said to have offered, in 1640, the enormous sum of 11,000 ducats for this curious work of art. Strangely enough, the book bears the English Arms, though it is supposed never to have been in England.

A MONSTER PIKE.

La Patrie Suisse states that on the 17th of November some fishermen of Eglisau caught a pike which measured four feet and a half long, and weighed more than forty pounds. The tail-fin measured more than thirteen inches in breadth. This fish is stated to be the largest taken for many years in the above locality.

The *Journal d'Agriculture Pratique* states that one of the most efficacious remedies for hemorrhage is vinegar or acetic acid. It is, however, necessary that the water which vinegar contains should be evaporated. This can be done by simply boiling the vinegar. The method of using this remedy is as follows: A sponge or a piece of lint if dipped into the vinegar whilst hot, and the wound carefully washed, after which, the sponge, filled with the liquid, is tightly bandaged on the wound.

M. X. possesses a beautiful picture, painted by a celebrated artist during the 18th century. It is a portrait of M. X.'s grandfather, holding on his knees a charming little dog. A few days ago M. X., on entering his study, stared with astonishment on beholding his dog—a bull terrier- which he had left asleep by the fireside, mounted on the table and busily engaged in tearing the picture to pieces. It is probable that the sight of the picture of the little dog had filled the bull dog with jealousy, the result of which was the destruction of a most valuable painting.

"Sticking Up" a Bank in Queensland.

(From the Mackay Mercury, Sept. 19.)

One of the first uses to which the local telegraph has been put, was to inform the general manager of the Australian Joint-Stock Bank that the Mackay branch of that institution had been stuck up and robbed to the tune of some hundreds of pounds. The details of the theft are as follows: About a quarter to 12 on Wednesday, the 12th inst, as Mr Geddes, the manager, was sitting in his room, Mr Green, the accountant, being at a small table behind the counter, the latter saw two men, an American mulatto and a native apparently, coming up the pathway, which leads through a thick low scrub to the bank door. Mr Green said, "Who is this coming?" Mr Geddes replied, "I do not know." The men then walked in, turned to the counter, and the dark one, pulling out a £1 note, asked for change. Mr Green said, "How will you have it—half a sovereign and the rest in silver?" "I want all silver,' said the man. While Mr Green was stooping down to count it out, the other man said, "Are you Mr Green?" "Yes," said the latter. "Then, where is Mr Geddes?" "There he is," said Green, pointing towards the manager. Having thus identified their men, the native moved towards the manager's room, and, stopping for a moment behind the partition, pulled out a revolver, and presenting it at Geddes, said, "If you stir you're a dead man." The dark fellow then covered Green, saying, "Don't you stir" The manager and accountant were then ordered into a small room behind the counter, the native keeping guard over them, while the half-caste closed the bank door, and searched for plunder, taking all the gold, notes and silver he could find, with the exception of six unissuable notes. This money he stowed away in a bag, the native in the meantime relieving the tedium of the prisoners by offering them an apple each. Having, however, but one, he had to tax the good nature of his mate for a second, the latter temporarily suspending his cash transactions while he pulled the fruit from his pouch. When the prisoners had been consoled with an apple, the native pulled out a second pistol and held one in each hand at his prisoners. A little friendly conversation then ensued; Mr Green somewhat naively remarking, "We little expected a visit from you this morning, you took us quite unawares." "I suppose not," replied the native. Green then said, "It is a d——d shame to rob us: it is only a small bank, and we are just commencing business." To this the unanswerable response was, "We want money and must have it." By this time the half-caste had nearly finished pillaging the drawers, and Mr Green asked him not to touch the cheques or papers, as they would be of no use to him, and only disarrange the accounts. Mr Geddes backed up this observation by stating that they bore the bank stamp, and that as they (the bushrangers) had all the money they ought to be satisfied. The half-caste was apparently satisfied, for he left the cheques and papers untouched, and was turning away when his mate asked, "Have you looked into the safe?" Mr Geddes, pointing to the teller's safe, said, "Here it is," and Mr Green opening it also invited them to look. They did so, and seeing nothing but a couple of bills, shut it, observing, "We have got everything." "Then you had better be off," said Geddes; and off they went, after the usual caution that if their victims gave the alarm for half an hour they would shoot them. Mounting their horses, which during the whole time had been tied to the post of the fence, they leisurely passed two or three cottages, several teams just then coming into Mackay, and cleared off with £746 8s. as the product of their daring coolness.

The two men implicated can be identified. Only a short time since they stuck up the Leichhardt Hotel, at Lake Elphinstone; at that time there were three in the gang, and a report is current, which however we do not credit, that they have put their third mate out of the way. A telegram was sent to Nebo announcing the robbery, but, strange to say, not a hint was given that they had taken the road. Had this omission been rectified, a party might have set out from Nebo to intercept them with a very good prospect of success. Sub-Inspector Blackeney and some native troopers are also reported in pursuit, but without the least chance of overtaking them, unless they should double back on their tracks. On the evening previous to the robbery Mr. J. T. Baker had paid in £450 to the bank on Government account; and that the affair was well planned and long meditated is evident from the fact that the men were seen lurking near the bank on Monday, and when asked by Mr Keeley what they wanted, said 'change.' No doubt they would have committed the theft then but for Mr Keeley's appearance; and had they done so they would have obtained less plunder by £450.

TARRING AND FEATHERING.—A strange case of tarring and feathering took place lately on the Adelaide Lead, at Maryborough, Australia. It appears that some time ago a married man, a miner, named Joseph Knowles, residing on the lead, contracted an improper intimacy with a young girl, aged 17, named Anne Jeffrey, the daughter of respectible parents, and an apprentice to Knowles' wife, who is a dressmaker. The result of this intimacy was that, on the girl being confined, Mrs Knowles left her husband and went to Melbourne. The intimacy between the girl and her seducer still appears to have been kept up, as she then left her father's house and took up her abode with Knowles. Some of the neighbours did not hesitate to express their disgust at their shameful exhibition of profligacy. The affair did not, however, rest there. On Monday, the 15th inst., a large number of miners and other residents of the locality assembled in front of Knowles' house and demanded admittance, which was refused The father of the girl burst open the door and ejected his daughter from the house, while his companions seized Knowles and proceeded with him to a waste piece of ground in the neighborhood, where a warm mixture of tar, pitch and resin had already been prepared. Knowles was stripped and the mixture poured over his head and body. This done, a bag of feathers was produced, and the helpless victim rolled therein. Amid shouts of derision he was then ordered to make tracks, and, on nearing his house, saw that it was in flames, the building having been set fire to during the progress of the punishment. Meanwhile some of the women who were present during the tarring and feathering process, advocated the expediency of serving the girl in a similar fashion, but this was not allowed by the men. Nevertheless, she received a severe handling from some of the gentler sex, but at last managed to escape. The matter will be reopened in a court of law, the burning of the building not being legal.

☞ A young man in Illinois was greatly smitten with a neighbor's daughter, and wanted her for his wife. In order to win her unsophisticated heart, he invited her to go with him to a circus that was shown in the vicinity. She accepted the invitation, and as they neared the ticket wagon, the young man rushed upon his fate by asking her suddenly if she would marry him. "No, I thank you," she replied. You won't, eh?' exclaimed the ardent youth, 'then buy your own ticket!' She took his advice and enjoyed the show greatly, but he didn't.

FREIGHTFUL AFFAIR AT COREA.—News from Corea, says the *Hong Kong Mail* of November 1, has arrived to the effect that the French have initiated proceedings to teach the Coreans that murdering foreigners is an unlawful pastime. The French admiral has sailed with his squadron to the Corea, but active operations will be deferred until after the winter. A sad tale of Corean barbarity accompanies this intelligence. The master and crew of an American schooner, named the General Sherman, with two English gentlemen, a Mr Thomas and Mr Hogarth, have been roasted to death by order of the king or his father—some accounts, say the latter—the unhappy victims having been tied down in their berths and the ship then set on fire. We may suppose that some notice will be taken of this by the British Government. Whether lawfully there or not, their semi-barbarous murderers have no shadow of excuse for this atrocity, and it is to be hoped that prompt and effectual punishment will be inflicted; not a pecuniary one only, let us trust, as there is but too good reason to fear will be the case where the lives of British subjects are concerned.

ACCIDENT TO THE SCHOONER MEG MERRILIES.—About 11 o'clock on Monday night, the schooner Meg Merrilies, bound for Victoria with a load of produce from Penn's Cove, Whidby Island, ran on a sunken rock off Beacon Hill, and went over on her beam ends. The crew saved themselves by means of a small boat, in which they managed to reach the shore, notwithstanding a heavy swell. The wind was blowing a perfect hurricane at the time of the accident, and the schooner struck so heavily as to lose her false keel and start her timbers. A part of the cargo floated ashore during yesterday, and the high wind that prevailed prevented any communication being had with the vessel. The Meg Merrilies is an American built schooner of some fifty tons; is owned by P. McQuade, Esq., and is valued at $3000. The cargo is worth some $700. An effort made by the Sir James Douglas to tow the schooner off, failed.

HANOVER.—A Berlin letter in the *France* has the following:—The news from Hanover is alarming. Serious disturbances are apprehended, and it is said that Count de Bismark desires to proclaim the state of siege. Similar intelligence arrives from Saxony. The Prussian soldiers are frequently insulted in the towns, and those belonging to the country loudly declare that they will recommence the war in a year. These facts are such as strongly to excite public attention. On the other hand the peace which seemed to be final between the Government and the Opposition in the Chamber was only a truce; hostilities are again commencing, as you may judge by the debates of the last few days, and all earnest and patriotic minds are preoccupied with the subject.

IMPORTING SALMON.—The Fideliter brings to Messrs. Everden & Bebee a large lot of Fraser River salmon. To the uninitiated this may appear as silly as the shipping of coals to Newcastle. Messrs. E. & B., know what they are about, and they have learned that the salmon from the Sound and Fraser river are more palatable to the Hawaiians than those from the Columbia river, the latter being too fat to eat raw, as Salmon is universally eaten in that country. The shipment will be placed in a bonded warehouse until the departure of the next vessel for the Sandwich Islands, when the invoice will be shipped to Honolulu.—*Oregon Herald.*

PORTLAND STEAMER.—It is rumored that the present is the last trip of the Pacific to this port. The Orizaba is to be docked and rebuilt, and the Pacific will take her place on the Southern route. The screw steamer Ajax will be put on the line between this place and San Francisco. During the past month workmen have been engaged remodeling the upper works of the Ajax, and enlarging the passenger accommodations. She is a very large ship, and will be without doubt the largest craft that ever entered the Willamette.—*Oregon Herald.*

THE SOIREE DANSANTE of the Victoria Dancing Assembly came off on Monday evening, and whether we speak of the number and beauty of the fair guests, the agreeable character of the re-union, the delightful music, or the elegant supper, we unhesitatingly pronounce it a complete success. Dancing was kept up until a very early hour yesterday morning.

MRS. DIGBY PALMER'S Soiree Dansante will take place this evening at Germania Hall. Every exertion has been taken by the lady promoter and her efficient committee to render the soiree one of the most brilliant and respectable of the season. A large orchestra will be in attendance, and we hope to see the room well filled.

MUNICIPAL COUNCIL—The Council met on Monday evening, the members all present but Councillor Trahey. Mr C. Gowen took the chair in the absence of His Worship. The publication of the By-law for Municipal revenue purposes was discussed and laid over till next meeting, which will be held on Friday next.

FROM THE SOUND—The steamer Eliza Anderson, from ports on Puget Sound, arrived yesterday afternoon. Captain Finch reports severe weather on the trip. The Anderson will return on Thursday.

THE FIDELITER sailed from Portland for Victoria on Thursday last, and is probably detained in Baker's Bay. Her freight is as follows: 7 pkgs mdse; 460 boxes apples; 3,200 qr sks flour; 95 sks wheat; 50 pkgs bacon; 10 hlf bbls butter; 7 cs lard; 34 bxs eggs.

CONVALESCENT—Dr Tolmie, who has for several weeks past, at different periods, been seriously unwell, is progressing favorably, and will shortly, we learn, be able to undertake his daily visits to town. The doctor's many friends will be glad to hear of his convalescence.

THE NICHOLAS BIDDLE.—This ship lies in Esquimalt harbour waterlogged. She has received injures of a serious chrracter, and a survey will be held as soon as the weather moderates.

WAGES.—J. Smith recovered $15 from J. Costello, before the Magistrate, yesterday. Old John Brown was not so fortunate, a suit which he brought against the same party being frowned out of court.

FROM THE WEST COAST—The schooner Surprise arrived yesterday from a trading trip to the West Coast of the Island. She reports rough weather, but nothing in the way of news of interest.

MECHANICS' INSTITUTE.—On Thursday evening the following questions will be brought up for consideration: "Is the present form of Government the most suitable for this Colony?"

THE CONCERT in aid of the Female Infirmary came off last evening, and was an entire success, both in the respect to the attendance and the performers. An extended notice will appear to-morrow.

KEEPING UP NEW YEAR'S.—A son of the Flowery Kingdom was arrested yesterday for endangering the public safety by setting off fire-crackers on a wooden sidewalk.

THE WIRES continued down north and south of this place yesterday, with no hope of being replaced until the storm shall have abated.

☞ Another Indian whisky-seller was bottled last night by the Police, and will be uncorked to-day by the Police Magistrate.

BOLD ROBBERY.—A St. Louis correspondent of the San Francisco *Bulletin*, upon date of November 21st says; E. Jaccard & Co., jewellers, of this city, were yesterday robbed of ten thousand dollar set of diamonds, in a very ingenious manner. The thief was an elegantly dressed, genteel looking man, and claimed to be looking for a large assortment of jewelry to stock a store in St. Joseph. He was shown an assortment of valuable diamonds among other things, and while the salesman was engaged in waiting upon some ladies, the gent made an urgent excuse for a trip to the basement in a confidential whisper, and passed down, leaving his hat on the counter. He then passed through a side door into Leitch's drug store, and drawing forth a cap concealed about his clothes, passed out. When the salesman finished serving the lady customers, he discovered that a casket containing a ten thousand dollar diamond set had gone with the stranger.

☞ A new mode of dispersing mobs has lately been discovered, and it is said to act 'like a charm.' The mode is to pass round a contribution box!

☞ Effectual destruction of weeds—marrying a widow.

LAST CHANCE—The entire stock of Brunn's fine clothing, hats, caps and gentlemen's furnishing goods, must be sold within two weeks. In order to give the citizens a chance to purchase, sovereigns will be accepted at $5 and greenbacks at San Francisco current rates. Yates Street, opposite the Bank of British North America. *

VEGETABLE PAIN KILLER.

The Greatest Family Medicine of the Age

Taken internally, it cures sudden colds coughs, etc., weak stomach, general debility, nursery sore mouth, canker, liver complaint, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painters' colic Asiatic cholera, diarrhœa, and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swelled joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. It is a SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

MOORE & CO.,
Agents.

A New and Grand Epoch in Medicine.—Dr. MAGGIEL is the founder of a new Medical System. The quackatarians, whose vast internal doses entombe the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrum of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant. There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

HOLLOWAY'S OINTMENT AND PILLS.—Abscesses, Erysipelas, Piles.—Unvarying success attends all who treat these diseases according to the simple printed directions wrapped round each pot and box. They are invaluable to the young and timid, whose bashfulness sometimes endangers life. A little attention, moderate perseverance and trifling expense will enable the most diffident to conduct any case to a happy issue without exposing secret infirmities to anyone. The Ointment arrests the spreading inflammation, restrains the excited vessels, cools the overheated skin, alleviates throbbing and smarting pains, and gives great ease. The same directions also clearly point out when and how Holloway's Pills are to be taken, that their purifying and regulating powers may assist by adjusting and strengthening the constitution.

☞ **The best Remedy for Purifying the Blood** strengthening the Nerves, Restoring the Lost Appetite FRESE'S HAMBURG TEA.

It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT!

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Barns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

ED. SEELY.

Gloucester, Mass. August 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plated engravings, bearing the signature of W. Westbrook, Chemist, and the private U. S. stamp of Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, for a family that does not use it.

Medical.

Scrofula, or King's Evil,

Is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases." From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other remedies had failed."

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words Dr. J. Collis Browne's Chlorodyne' on the Government stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell street, Bloomsbury, London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

Dr J. Collis Browne's Chlorodyne—Vice-Chancellor Sir W Page Wood stated publicly in court that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES, July 30th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See LANCET, Dec. 31, 1865.

Dr J Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.

Dr J Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

FRENCH MEDICINES IN VOGUE.

BY GRIMAULT & CO.,

Chemist to H. I. H. Prince Napoleon,

49 RUE RICHELIEU, PARIS.

NO MORE COD LIVER OIL

GRIMAULT'S SYRUP OF IODIZED HORSE-RADISH

This syrup is employed with the greatest success, in place of Cod Liver Oil, to which it is infinitely superior. It cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony and loss of appetite. It regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels, and is administered with the greatest efficacy to young children subject to humors or obstruction of the gland. At last, it is very efficacious in the diseases of the skin.

No More Consumption.

GRIMAULT'S SYRUP OF HYPHOSPHATE OF LIME.

This new medicine is a sovereign remedy in phthisis and other diseases of the lungs, promptly removes all the most serious symptoms. The cough is relieved; the night sweats cease, and the patient rapidly recovers his health.

No More Poverty of the Blood and Pale Complexion,

DRS LERA'S PHOSPHATE OF IRON.

This new ferruginous medicine contains the elements of the blood and bones, and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colorless and tasteless. It speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa and anemia.

The majority of the Academies of Medicine of Paris recommend the Phosphate of Iron to ladies of delicate constitution suffering from anemia, and other persons fatigued from over anxiety, nervous emotions, over work, general debility and poorness of blood.

It is the only preparation which never causes constipation, and can be borne by the most delicate stomachs.

Nervous Headaches and Neuralgias.

Instantaneously cured by

GRIMAULT'S BRAZILIAN GUERANA.

A vegetable substance, used from time immemorial in Brazil, and entirely inoffensive.

Better than Copabia

GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS

Where all other preparations have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in more chronic cases.

DIGESTIVE LOZENGES AND POWERS OF ALKALINE LACTATES

BY BURIN DU BUISSON,

LAUREATE OF THE PARIS IMPERIAL ACADEMY OF MEDICINE

This delicious preparation is prescribed by the most reputed doctors in France, against all derangements of the digestive functions, such as gastritis, gastralgia, long and painful digestions, wind in the stomach and bowels, emaciation, jaundice, and complaints of the liver and loins.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY

Holloway's Ointment

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to any one.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,	Elephantiasis,	Sore Throats,
Bunions	Fistulas,	Skin Diseases
Bite of Moschetos and Sand Flies,	Gout,	Scurvy,
